## OBJECTIVE

I am a passionate and results-driven IT Programming student with a relentless commitment to excellence, seeking an internship opportunity to leverage my diverse skill set. Possessing a strong foundation in SQL, Python, HTML, CSS, and JavaScript, as well as Windows Administration. I am eager to learn, apply my skills and make a meaningful impact in the ever-evolving landscape of IT.

---

## PROJECTS

**Creating a 2-D game:** Demonstrated proficiency in Python and game development by creating a 2-D ping pong game using PyGame, showcasing my skills in coding, problem solving and game design. [GitHub](#)

**Creating my portfolio website-** Showcased skills HTML, CSS, JavaScript while demonstrating my creativity and attention to detail in design and functionality. [GitHub](#)

**Social Media DBMS:** Designed and implemented comprehensive SQL database schema tailored for social media platforms, integrating various tables, and utilizing ER diagram for visual representation. [GitHub](#)

**Project tracker application:** Developed a project tracker application in Python, utilizing SQLite for database management. It allows users to create, view, delete projects demonstrating proficiency in database schema design, SQL queries, developing CLI's and handling database operations effectively. [GitHub](#)

**Matching card game:** Created a card matching game using HTML, CSS, JavaScript, highlighting front-end web development skills and UI design expertise. Demonstrated proficiency in event handling, DOM manipulation, and CSS animations for an engaging user experience. [GitHub](#)
