OVERVIEW

I am a passionate and results-driven IT Programming student with a relentless commitment to excellence, seeking an internship opportunity to leverage my diverse skill set. Possessing a strong foundation in SQL, Python, HML, CSS, JavaScript. I bring a unique blend of technical proficiency, problem-solving, and a keen eye for detail. I am eager to learn and ready to apply my skills, collaborate effectively and make a meaningful impact in the ever-evolving landscape of IT.

SKILLS

C | Python | Java | HTML | CSS | JavaScript | Git | GitHub | SQLite | Linux | AWS | DevOps | Adaptability | Time Management | Communication | Problem Solving | Teamwork | Quick Learning | Self Learning.

PROJECTS

- **Creating a 2-D game:** Demonstrated proficiency in Python programming and game development by creating a 2-D ping pong game using PyGame, showcasing my skills in coding, problem solving and game design.
- **Creating my portfolio website:** Showcased my skills in web development and design by creating a portfolio website, demonstrating skills in HTML, CSS, JavaScript.
- **Social Media DBMS:** Designed and implemented comprehensive SQL database schema tailored for social media platforms, integrating various tables, and utilizing ER diagram for visual representation.
- **Project tracker application:** Developed a project tracker application in Python, utilizing SQLite for database management. It allows users to create, view, delete projects demonstrating proficiency in database schema design, SQL queries, developing CLI's and handling database operations effectively in Python.
- **Matching card game:** Developed a card matching game using HTML, CSS, JavaScript, showcasing expertise in front-end web development and user interface design. Through event handling, DOM manipulation, and CSS animations, I demonstrated proficiency in developing engaging and visually appealing web applications.
